

HEBROS. FIRE
LASTS 6 HOURS

Fuel and Feed Yards Partially Destroyed Saturday Night; \$5000 Damages.

Pulling down stacks of wood, members of three fire departments fought six hours against a fire which threatened the plant of Heib Bros. Feed and Fuel company, at 2100 Texas street, Saturday night. The damage amounted to approximately \$5000. Although the origin of the fire cannot be discovered, it is believed that it was set on fire. The fire started in the northeast corner of the plant and, continuing west, the entire yard was a mass of flames and the offices of the company threatened.

Fire Discovered.
The alarm was sent in at 10:15 by Clyde Woolen and Ted Brann, who were returning from down the valley. It was answered by the Central and East El Paso departments and later the Sunset department. Twenty animals, corralled in the yard, were released, and they scattered over the city, all being recovered Sunday morning. A number of big trucks were also hauled out of the plant and the fire pounded out with heavy sticks.

Water Pressure.
Due to poor pressure, it was 15 minutes before over one line of hose could be put into operation by the firemen. The entire plant, with the exception of the office buildings, was then burning and it was some time before it could be controlled. The immense amount of fuel in the bins catching readily. Three box cars standing on a siding were burned to the frames, and the firemen experienced great difficulty in preventing the piles of wood from rekindling after it had been drenched several times.

Three Lines of Hose.
Within an hour after the discovery of the fire three lines of hose were playing on it while another was added in 15 minutes more.

Despite the fierce heat the firemen gradually got the blaze under control, a central stream being played on one spot in the large wood piles until it was soaked, before they went on to another. The small buildings were an electric sawing machine was used to cut away the first to be burned and the department was unable to move any of the contents. A quantity of bran in the basement of the brick office building was fired by sparks and the hose was turned on this.

\$5000 Damages.
According to J. C. Field the damage done to the plant, not including the three box cars standing on the switch, was approximately \$5000. None of the coal in the bins was damaged to any great extent, according to Mr. Field, while the majority of the wood stacked in the center of the yard was saved. In all about eight cars of wood were burned, this being valued at about \$500. The remaining quantity of lumber stacked, was burned completely to the ground, the fire originating in this particular corner.

Watch Sparks.
Care was exercised by the department in preventing sparks from flying to the burning and El Paso lumber yard, which is only a short distance from the Heib Bros. A Texas & Pacific freight train, which was stopped at the crossing, due to the network of hose, drenched its crew and withdrew to the yards. Owing to the great distance from the nearest pump to the burning area, hose had to be run for a distance of about 500 and 600 feet, and this had to be carefully guarded from sparks and wagons. After the last train had been extinguished and the remaining buildings were thoroughly soaked by the firemen in order that it would not catch again from smoldering wood.

Evil Wind Rescued.
Hats and matches are supposed to have been responsible for a fire at the home of J. J. Smith, at Arizona street, Saturday night at 11:15 o'clock. Mrs. William Miller, the invalid mother of Mrs. Smith, was carried out of the house.

An Arizona street car cut the hose which lay across the track, and the fire which had been smoldering until another line could be laid, and it was extinguished. A false alarm of fire from 215 West Overland street brought the firemen of the Central department to the scene, but they found the fire had been out for some time.

CARMEN SYLVA'S PROPERTY ALL LEFT TO CHARITY.
Bucharest, Rumania, March 6.—All of the property of the late daughter queen Elizabeth Carmen Sylva was left to charitable institutions. One of the last acts of the queen mother was to dictate a letter to a telegram of inquiry from the German emperor at Verdun.

JUANES FIGHT
DR. PIERCE'S COOPERATION

Gen. Gavira and Mayor Prieto Promise Dr. Pierce Their Cooperation.

Military and civil authorities in Juarez will cooperate with the authorities on this side in the fight against the typhus house. At a conference held Saturday afternoon in mayor Tom Lea's office Gen. Gabriel Gavira, commander of the Carranza forces at Juarez and mayor Manuel Prieto, of that city, pledged their support in the fight against the spread of typhus and other contagious diseases, to the end that both Juarez and El Paso shall be free of contagious diseases.

Present at the conference were mayor Tom Lea, alderman J. P. O'Connor, chairman of the committee on health and sanitation; Dr. C. C. Pierce, senior surgeon, public health service; Dr. W. T. Tappan, United States quarantine officer; Dr. D. H. Hufstaker, state quarantine officer; Dr. G. N. Thomas, county physician; Gen. Gabriel Gavira, mayor Manuel Prieto of Juarez; Andres G. Garcia, Carranza consul at El Paso; E. W. Berchinski, supervising inspector of the United States immigration service; and J. S. McDaniel, superintendent of the county hospital.

Dr. Pierce Tells of Border Work.
Dr. Pierce made a short talk in which he reviewed the work that had been done by the health authorities at El Paso, Laredo and other border towns. He stated that there is heavy travel across the border at these places and that all inbound passengers are required to be inspected. It is the intention, he stated, to do the same thing here. "We don't want to do anything to interfere with commerce between the two countries," he said, "but we feel it our duty to protect the United States from typhus, which undoubtedly is being carried across the border."

Three Lines of Hose.
Within an hour after the discovery of the fire three lines of hose were playing on it while another was added in 15 minutes more.

Despite the fierce heat the firemen gradually got the blaze under control, a central stream being played on one spot in the large wood piles until it was soaked, before they went on to another. The small buildings were an electric sawing machine was used to cut away the first to be burned and the department was unable to move any of the contents. A quantity of bran in the basement of the brick office building was fired by sparks and the hose was turned on this.

Watch Sparks.
Care was exercised by the department in preventing sparks from flying to the burning and El Paso lumber yard, which is only a short distance from the Heib Bros. A Texas & Pacific freight train, which was stopped at the crossing, due to the network of hose, drenched its crew and withdrew to the yards. Owing to the great distance from the nearest pump to the burning area, hose had to be run for a distance of about 500 and 600 feet, and this had to be carefully guarded from sparks and wagons. After the last train had been extinguished and the remaining buildings were thoroughly soaked by the firemen in order that it would not catch again from smoldering wood.

Evil Wind Rescued.
Hats and matches are supposed to have been responsible for a fire at the home of J. J. Smith, at Arizona street, Saturday night at 11:15 o'clock. Mrs. William Miller, the invalid mother of Mrs. Smith, was carried out of the house.

An Arizona street car cut the hose which lay across the track, and the fire which had been smoldering until another line could be laid, and it was extinguished. A false alarm of fire from 215 West Overland street brought the firemen of the Central department to the scene, but they found the fire had been out for some time.

FUMIGATION
OR THE LOUSE

El Paso City and El Paso County Are Taking Every Precaution For Health.

El Paso county and El Paso city are being given a thorough cleaning, as a precaution against the spread of any disease that might be brought here from Mexico, now that the railroads are open to the interior and Mexicans are flocking to the border. The federal, state, county and city authorities feel that the situation is entirely under control and the outlook cheerful.

Many Quick Oil Baths.
Francisco and Eustasio Lara and their mother, Felicitas Gutierrez, were found in a house in the outskirts of the smaller district Saturday afternoon with typhus. The county health authorities, under the direction of Dr. G. N. Thomas, county physician, worked all day in the district, giving all who had been exposed the customary bath of coal oil and vinegar, while all clothing was disinfected and all bedding burned.

Dr. Thomas Stated Monday that all the cases now in the hospital are recovered. The county now has four deputy inspectors at work, two above the city and two below, working as far down as Fabens. One inspector works out of the city, and the others are in the city, attending to the duties of administering baths and disinfecting.

City Finds No Typhus.
The inspectors working in the city under the direction of Dr. W. C. Klutz, city health officer, have finished in the district south of Eighth street and Monday morning began working in the old Fort Bliss district. Dr. Klutz states that unusually healthful conditions have been found in all districts visited, and very few cases of sickness of any kind have been found. The inspectors, themselves, have found no cases of typhus.

City Finds No Typhus.

Dr. Klutz states that unusually healthful conditions have been found in all districts visited, and very few cases of sickness of any kind have been found. The inspectors, themselves, have found no cases of typhus.

Dr. C. P. Pierce, senior surgeon of the public health service, and Dr. J. W. Tappan, United States quarantine officer at El Paso, conferred Monday morning with Gen. Gabriel Gavira, of the Juarez garrison, and mayor Manuel Prieto, Juarez, working out a plan of cooperation between Juarez and El Paso in the work of preventing any more of the fever.

COURTMARITAL AT FORT BLISS FOR TRIAL OF POPULAR OFFICER

A courtmartial, of which Col. L. G. Berry, fourth field artillery, is president, convened at Fort Bliss today for the trial of first Lieut. E. E. Michaelis, 16th infantry, who is charged with neglecting to keep company records in proper shape while commanding a company of the regiment. Lieut. Col. E. V. Smith, sixth infantry, is military counsel for Lieut. Michaelis, with R. E. Thompson acting as witness. Judge Dan M. Jackson is also associated in the case for the defense.

Lieut. Michaelis is one of the most popular officers stationed at El Paso, and numbers his friends by the hundreds among the civilians of the city as well as in the army.

The charges are said to be technical and to have arisen out of a period of activity on the part of Lieut. Michaelis when he was at work bringing to justice the men who stole a machine gun from his regiment and later when he was serving in an executive capacity in connection with the military maneuvers at Washington park, during which period he had little time with his company.

ASSIGNMENTS AND LEAVES OF ABSENCE FEATURE ORDERS

Washington, D. C., March 6.—The following army orders have been issued: "Capt. W. T. Murray, general staff (infantry), is assigned to the Fourth infantry, effective March 10."

First Lieut. H. W. Grege, signal corps (infantry), is assigned to 19th infantry, effective March 10.

First Lieut. J. A. Robertson, medical reserve corps, is ordered to active duty and will report to the commandant, Fort Thomas, Kentucky, for duty.

Leave of absence, two months, Capt. W. T. Murray, general staff, two months, Capt. R. J. Jackson, retired, recruiting officer, ten days.

Pavlova's Charm.
The Coppelia ballet, which has been so successful, was given last night, and was a perfect triumph. The pretty Nedda smiling at her lovers, was beautifully sung and forcefully played, and the men who stole a machine gun from his regiment and later when he was serving in an executive capacity in connection with the military maneuvers at Washington park, during which period he had little time with his company.

CROWDED HOUSES GREET
OSTRA OPERA COMPANY AT
TWO PERFORMANCES.

Imperial Potentate to be Entertained at Luncheon by Local Shrine March 13.

Madame Butterfly was exquisite. She sang like a thrush, bright and sweet, and with odd incomparable intervals. Her little hands fluttered in a thousand motions of delight. A bird on the bough would not have been more graceful. As she came over the little red bridge and into the play, singing her high notes and turning this way and that, each hand placed just as each quick turn of her body so birdlike, so small, so quick and so sweet—it was more Butterfly's personality for awhile that captured the enraptured theater than the songs she sang, the wedding procession she was making, or the lovely swinging music of Puccini.

The music is wonderful. It swings with the rhythm of wind in the trees, drifts like fruit blossom petals on the wind, and booms and clatters and crackles like a thunder storm in the forest.

It is all too sad. There is no justice in it. Butterfly is too little, too exquisitely gay for the fate she measures out to herself at the end. The American men and the American wife appear at too great a disadvantage.

Details All Perfect.
Suzuki, the perfect, devoted maid. The duet where the little mistress and maid scatter the cherry blossoms over the house for a festival in honor of the American husband who does not return to his love, was most lightly, flutteringly, gracefully sung and acted.

Puccini's one is only being played upon, as the writer of the story and the composer of the music meant the audience to be played upon, to be so thoroughly moved by the bright butterfly and the little Japanese girl, that the young American officer so dull and unworthy.

Japanese Prima Donna.
Butterfly, as this little Japanese girl portrayed her, is a revelation. One function that after seeing her, all other attempts at Madame Butterfly will lack vivacity. Her thousand movements, her fluttering motions of hands and feet, her quick turns of body, her kneeling, her little runs, her outstretched arms and bright, bright, bright movements, were so different from anything in our land and so perfect both in safety and in despair, and her singing as high, so clear, that she seemed to be forgotten. There are possibly awkward Japanese women, possibly there are untrue and wicked ones, but the little Japanese girl who has given El Paso a sympathy with the exquisite, the tender, the true, the graceful, and the honorable in the women of the music's land.

The music, so sympathetically conducted, voices the story so that one almost might have told it again without the help of the stage, as one might almost have done with the fluttering of Butterfly. The orchestra and Butterfly might almost have done without the Japanese marriage without the Japanese marriage, without the American promise breaker, or his wife or the consul.

Butterfly and the orchestra could have told the whole story with her, her songs and her little fluttering hands and little, bending, fluttering body, with the orchestra swaying and crashing and protesting and sobbing with her.

A Lovely Ballet.
After the end of Butterfly came Coppelia, a ballet, the music being from Tchaikowski's Nutcracker Suite. In a great white clearing in the hoary woods, snowy, silken men and girls powdered and glittering as light snowflakes, danced and turned and drifted about the stage like a jolly first snow storm of the year. The story was of a girl who had been stolen by a wicked witch, and a honey-sweet spirit, daughter of old Boreas out on a lark.

Agile and Superiorly Given.
At night the Coppelia ballet, first-Prigiacelli, that light, tuneful, gay, perfect bit of comedy, that play within a play, that turns to tragedy in the end, was given with perfect skill and with perfect skill. The Columbia who had stuck to her guns, music and dancing strut and bravado although she feels the doom at hand, poor little, dead on the steps that lead up to the players' stage, and her lover dead, her husband fled into the night, the clown stuns audience mouthed, and the gay little audience of country folk all shocked and crying, "What a tragedy!" over this death-turn to the comedy they were enjoying so perfectly.

One can say of the Prigiacelli that from the first note to the last, it is perfectly done. The pretty Nedda smiling at her lovers, was beautifully sung and forcefully played, and the men who stole a machine gun from his regiment and later when he was serving in an executive capacity in connection with the military maneuvers at Washington park, during which period he had little time with his company.

STEVENS COMING
WITH 30 OF DIAN

Imperial Potentate to be Entertained at Luncheon by Local Shrine March 13.

J. Putnam Stevens, imperial potentate of North America, and 30 of his imperial divan will arrive in El Paso March 13 at 5 p. m. The imperial party will be met at Clint and accompanied to El Paso by a delegation of the members of El Maide, the patrol and a band. Headquarters will be established at Paso del Norte. After a luncheon the imperial party, accompanied by El Paso nobles, will take an automobile trip to Juarez and the valleys of El Paso. On Wednesday at 5 a. m. a special will arrive from Chicago to accompany the imperial party to Phoenix, Los Angeles and San Diego. This party will be met at the waterworks, served breakfast and brought to El Paso in an automobile.

At noon Wednesday all El Paso nobles and visiting Shriners will assemble at the Masonic temple, where a Mexican lunch will be served. At 8 p. m. Wednesday a dance and reception will be given at the Toltex club.

Saturday evening: "When I saw the opera of New Orleans it was with an enjoyment but not the same as I felt here today. This was not because the performance of the splendid artists gave here was not the equal of those given in New Orleans."

"I felt a sense of responsibility for the appearance of the company in El Paso. Judging from the applause and the enthusiastic reception given the company by El Pasoans at both performances, I am satisfied that the venture was a complete success. I have had a part in bringing the company to El Paso has doubled my enjoyment of the opera."

"This opens the way to future grand opera performances in El Paso for we have shown that we appreciate and support good music."

TODAY'S AMUSEMENTS

"TO HAVE AND TO HOLD."
One of the most stupendous productions of the Jesse L. Lasky company have been made for the Paramount. Program will be the forthcoming release of "To Have and to Hold" which will be the attraction at the Alhambra today only, with the beautiful Miss Murray, a stellar role, supported by Wallace Reid and an all star cast.

The photograph is taken from Mary Johnson's famous novel of the early days of Virginia and as Lady Jocelyn Leigh, Miss Murray is said to be seen in her best. "To Have and to Hold" is historically correct, the costumes and scenery having been especially prepared by the scores of artists after months of careful re-search.—Adv.

WIGWAM—AN ESSAY IN FEATURES.

GOOD COMEDY AT BIJOU TODAY.
"Where the Heather Blooms," a comedy full of laughs, will be shown at the Bijou today. Betty Compton and Edna May play the leads. Tomorrow—Scenes of El Paso will be shown in the Solig-Tribune, the world's greatest news item.—Adv.

FORT WORTH WOMAN IS REAL DAUGHTER OF REVOLUTION

Fort Worth, Tex., March 6.—Mary Jane Skidmore, of Fort Worth, who, according to all information available, is one of three living daughters of the American revolution, will celebrate her eighty-seventh birthday on June 27 of this year. To commemorate the event, the local chapter of the Daughters of the American Revolution is seeking to have the national chapter decree appropriate exercises for that day.

Mrs. Skidmore was born near Cincinnati, Ohio, the daughter of Jonas Frazer, who served three years under Washington, and who heard the Liberty Bell in Philadelphia. She retains a vivid recollection of her father, who was frequently sought to recount before public meetings stories of the battle of the arms, the battles and the Liberty Bell.

SAFFORD MILITIAMEN ELECT THEIR OFFICERS

Safford, Ariz., March 6.—The Safford company of the Arizona national guard has elected the following officers: E. H. Roach, captain; E. S. Wickersham, first lieutenant; Clyde James, second lieutenant. Non-commissioned officers: Quartermaster sergeant: John F. Weber, chosen; Charles Dancy, first sergeant; George S. Martin, sergeant and company clerk; John E. Baker, sergeant. There are 67 officers and men in the company. It was sworn into service by Maj. H. G. Coyle, assistant adjutant general.

WE WILL MOVE
To 107 Texas Street,
About March 15th.

Why Drag Through Life
Wearing Worthless Trusses?

93 Per Cent of the Suffering and Trouble
Ruptured People Go Through Is Caused
By Spring and Leg-Strap Trusses

Are you sick and tired of wearing trusses you can't make hold, which you can't feel safe in, or which hurt so they scarcely give you a minute's peace?

Don't you know that such contraptions will sooner or later let your rupture get the best of you?

Don't you know they are almost sure to cripple you up, so you won't be able to keep at work, won't be able to make a living?

Don't you know they gradually let you get so bad that sooner or later you'll have to face the danger of a sixty-day rest—without having to risk a cent—and see for yourself what a relief it is to get rid of such misery-causing makeshifts?

No More Belts, Leg-Straps or Springs.
We have found a way to hold any man's rupture without harmful pressure, without any belts or springs around your waist, without having to wear leg-strap.

It is our guaranteed rupture holder. It is an improvement over elastic and spring trusses and so-called "appliance" as the modern locomotive is over the first steam engine ever built.

60 Days Trial to Prove It.
We have so much faith in it—have seen what it has done for so many others—that we are willing to make one especially for you and send it to you for sixty days' trial. Willing to give you plenty of time to try it for yourself and know how good it is.

If it doesn't keep your rupture from coming out or from bothering you in any way, then you can send it back and it must cost you a single penny.

It is the only thing we know of for rupture that you can get on long enough to test, to make sure because the only thing good enough to stand a long and thorough test.

Why Suffer With Backache, Kidneys or Rheumatism?

"ANURIC"

The Newest Discovery in Chemistry. Eminent Medical Authorities Endorse it. A New Remedy for Kidneys, Bladder and all Uric Acid Troubles.

American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your druggist—"ANURIC". Because of uric acid in over-abundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Doctor Pierce who discovered a new agent, called "Anuric" which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Doctor Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," and send 10 cents for a trial package of "Anuric" Tablets.

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past 50 years.

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past 50 years.
